## Q and A:

Question # 1 - Which processor(s) do you current work with? How many merchant ID's do you have on file?

Answer – We currently use Priority Payment Systems. This process is handled through one merchant ID.

Question #2 - Are you currently under contract? Do you have to pay any early termination, or loss of revenue fees for changing your relationship from your current processor?

Answer – We are currently under contract. Our understanding is that any termination prior to August 2018 would require an early termination fee.

Question # 3 - How long have you been setup with your current processor?

Answer – We have been setup with our current processor since August 2015.

Question # 4 - Are all merchant ID's processed through the same processor? If not, who processes what, and with who?

Answer - Yes.

Question # 5 - What are the software titles / terminal setups associated with each merchant ID? Please provide software name, make, version, and also certified processors for these products.

Answer - Currently, we do not use card readers or POS terminals. We only take card payments through our website using processor APIs integrated into our software applications.

a. <u>Do these software or terminal setups require gateways</u>, Ethernet, Wi-Fi, or telephone lines for communication?

Answer – Please see above answer. Currently, we do not use card readers or POS terminals. We only take card payments through our website using processor APIs integrated into our software applications.

b. We are unfamiliar with the COR and AXIA based systems listed in your RFP. What processors / and or gateways do these systems integrate with?

Answer - COR is provided by Nuvivus LLC and processes ACH payments through PayZang/Forte API. This was a custom integration. A change of provider will require custom programming from Nuvivus. AXIA is provided by Pioneer Technology Group. Currently, we do not accept card payments through AXIA; however, Pioneer provides this capability and has advised that they work with various processors and are prepared to work with any standard API.

c. <u>If these are proprietary software titles that only work with your current processor, are you open to investigating the use of other softwares to reduce your costs while still meeting your processing needs for integration?</u>

Answer - We are always interested in improving our processes and will consider any constructive options. We have contacted our primary software systems vendors (Equivant/Courtview-Showcase, Nuvivus-COR, Pioneer-AXIA) and they are all open to integration with new processors to meet our needs.

Question # 6 - <u>In terms of P2PE certified solutions</u>, <u>RFP mentions integration with your current systems</u>, <u>could you provide which processors are supported by your integration for COR</u>, AXIA, and Showcase.

d. <u>Do these systems provide point of sale solutions that integrate with your current systems</u>, and are also P2PE compatible? If so, what processors do these systems integrate with?

Answer - We have contacted our primary software systems vendors (Equivant/Courtview-Showcase, Nuvivus-COR, Pioneer-AXIA) and they are all open to integration with new processors to meet our needs.

Question # 7 - Please provide 3 months of current processing statements for each merchant ID. Please also provide annual credit card volume and average ticket for each merchant ID.

Answer – Please see attached processing statements.

Question #8 - Please provide a copy of your most recent / current contracts for your processing relationship(s).

Answer - Please see attached copy of our current agreement.

Question # 9 - Would it be possible to arrange a conference call to discuss software in more detail?

Answer – It would not be possible to arrange a conference call at this time. The written Question and Answer process will have to be relied upon to give sufficient information regarding this procurement.
